

Luka Schulz Luka is fascinated by the seam that exists between the physical and digital world, and how digital materials can augment human existence.

Education New Media Design, BFA | 2015-2019
Minor in Computer Science
Rochester Institute of Technology (RIT)

Experience Research Assistant | Summer 2018 - Winter 2019
Department of Homeland Security
Created a design system for #Ex-Out that focused on compassion and inclusion. The goal was to help people combat violence and extremism in their communities.

Student | Summer 2018
Copenhagen Institute of Interaction Design
Participated in a week long course taught by Machine Learning (ML) practitioners. Learned and utilized ML models to generate unique and playful interactions.

UX Intern | Summer 2017
Microsoft
Worked to pioneer a Mixed Reality (MR) workflow for the Envisioning team while also creating an environmental installation for the Microsoft Envisioning Center.

Resident Advisor (RA) & Senior RA | 2016 - 2019
Residence Life RIT
Helped over 200 freshmen get acclimated to college while also creating inclusive communities that foster growth and camaraderie.

Presentations An Exploration of Audio Interfaces | 2018
Presented at RIT's second annual IxD Workshop on the latent possibilities of audio interfaces.
Emotional Intelligence Seminar | 2018
Presented to a few hundred RAs and professional staff on the importance of Emotional Intelligence.

Interests Looking in library books, opening doors, A4 Paper, playing guitar, Houdini, decentralization, ML, smiling
